

ClearSight 2022-2023 at a Glance

Renaming of Assessments

- Fixed-form "Checkpoint" tests from previous years have been renamed "**ClearSight Formative**" for all grades
 - Longitudinal reporting is still available for these tests
 - In Reporting: when filtering for these tests in CRS in the filter panel, the Test Group is now called "**Formative**"
- The Science tests formerly named "Formative" have been renamed as "**Interims**"
 - Science Interims are only available for clients that have requested and paid for the Science supplemental package

ClearSight 2022-2023 at a Glance

Scoring & Reporting

- ELA Interims (not the separate Reading Interims) can now be scored even if a student's response to the final writing prompt is left blank or deemed insufficient to score
 - Previously, insufficient writing prompts would cause a delay in the overall reporting of the ELA Interim
 - With this adjustment, ELA Interims scores will still generate and be accessible in Reporting
- All roles can now hand-score Educator-Scored assessments in Reporting
- The enhanced Reporting dashboard allows you to customize the default tests you see when logging in to Reporting

Overall, very minor changes to ClearSight for 2022-2023 year!
